## WINTER WHITE

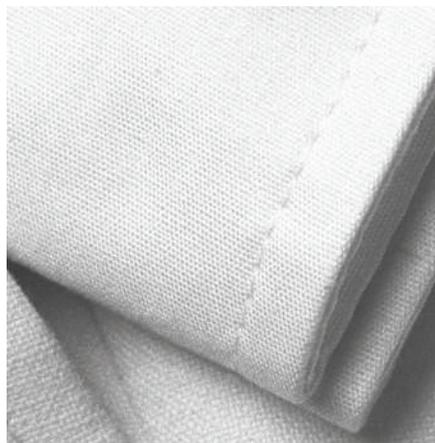

DESIGN INSPIRATION

This model was designed to be an homage to creativity. Like freshly-fallen snow, the gentle white color represents an open space to be made lustrous with the light of possibility. The play of pattern shows the sewist's ability to connect ideas in the making of great pieces.

POSSIBILITY | MOVEMENT | CONNECTION

- Soft texture of the graphic pattern behind glass gives the machine depth
- Graphic, textured pattern visibility varies from every angle so every view of the sewing machine provides interest and movement never before seen in a sewing machine

## DUSK FABRIC

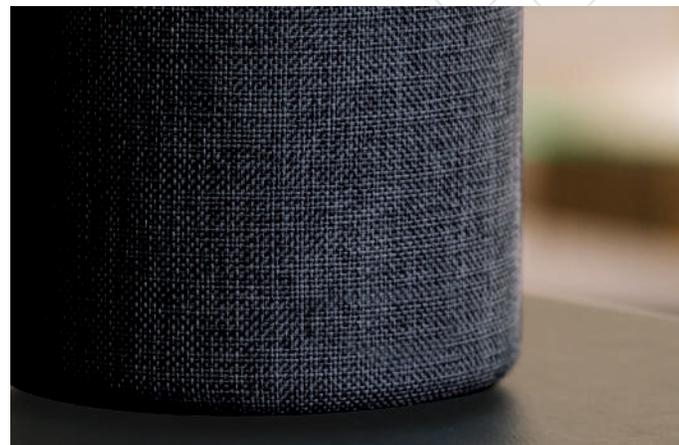

DESIGN INSPIRATION

Designers infused this model with the sense that every spark of inspiration can be amplified. Thus, the innovative materials of the machine represent the interconnected forces of technology and textiles in the modern sewist's craft.

TECHNOLOGY | WARMTH | FORWARD-THINKING

- Integrates sewing textile elements into machine design for warmth and tactile appeal
- Evokes high-end electronic design to demonstrate how the sewing machine amplifies sewing craft
- Embraces the interior design trend of using natural materials in a modern way
- Uses long-lasting, durability-tested fabric proven to resist stains, tears and fading

# NORTHERN LIGHTS

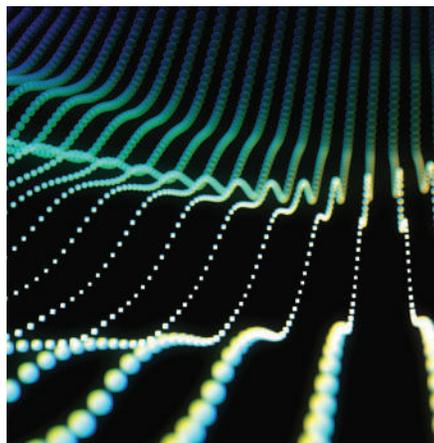

DESIGN INSPIRATION

The minds behind this model wanted to capture how sewists create their own brand of phenomenal with every stitch. Named for the magic of the Northern Lights, this model embraces the very personal space where calm gives way to the wonder of pure artistry.

FOCUS | SENSATION | SOPHISTICATION

- Deep teal chosen based on universally trending color in fashion, interior design and fabric production
- Rich teal color brings sense of calm to inspire greater connection to every project
- Finish features luminous, metallic element under smooth, glossy finish to accentuate the curves of the machine as if they are highlights in an aurora sky

## A SMARTER WAY TO SEW & EMBROIDER

A.I. ALLOWS THE MACHINE TO LEARN  
AND CONTINUOUSLY IMPROVE.

The PFAFF® *creative icon*™ 2 sewing and embroidery machine ushers in a new era of sewing. It is the first sewing machine in the world to be engineered with artificial intelligence. Fueled by an upgraded microprocessor, this advanced machine monitors sewing and reacts to spoken commands, automatically processing the information in the cloud to deliver peak performance.

### TODAY'S A.I.

Attach almost any presser foot and the machine will alert you if the foot is compatible with your stitch selection.

### TOMORROW'S A.I.

Will ensure you have the most advanced sewing features and functionality continuously added to your machine through automatic software updates.
