INSPIRATION

All of the embroidery designs found in our Feather collection were inspired by the Westalee Design Feather, Spin-e-fex Feather, Feathered Leaf and Feathered Leaf Circle Wreath ruler work Templates, designed by Leonie West. This series of quilting templates can create a myriad of beautiful quilted designs.

Our embroidery look book was created in tandem as a ruler work inspiration guide. This look book will list which quilting template each embroidery design was inspired by.

TempLee is a reverse applique technique that allows for a reveal fabric to add pops of color on a quilted project, providing a similar affect to a fill stitch on an embroidery design. EmbroideLee quilting designs are digitized with few to no jump stitches to more closely resemble Westalee template quilting, and were created not only as traditional quilting designs but also with some filled elements so that they resemble TempLee designs.

Ruler work and embroidery can work together to finish quilts and create beautiful projects in many sizes.
